**NEXT STEP 2016**  
**DESTINATIONS OF 2015 YEAR 12s**  
Mount Morgan State High School

**Introduction**

This page presents a summary of results of the annual Next Step survey for Mount Morgan State High School. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2015, whether they attended a state, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician’s Office conducted the survey between March and June 2016, approximately six months after the young people left school. Responses were collected online and via computer-assisted telephone interviewing.

Statewide and regional reports from the Next Step survey will be available on the Next Step website in September 2016 at www.education.qld.gov.au/nextstep.

**Response rate for Mount Morgan State High School**

Table 1 below reports the response rate for Mount Morgan State High School. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended Mount Morgan State High School in 2015.

It has not been possible to ascertain how representative these responses are of all Year 12 completers from this school.

**Definitions of main destinations**

The pathways of Year 12 completers were categorised into ten main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at www.education.qld.gov.au/nextstep.

**Summary of findings**

In 2016, four young people who completed Year 12 at Mount Morgan State High School in 2015 continued in some recognised form of education and training in the year after they left school.

The most common study destinations were Bachelor Degree (one respondent), VET Certificate IV+ (one respondent), VET Certificate III (one respondent) and VET Cert I–II/other (one respondent). The combined VET study destinations accounted for three respondents, all of which were in campus-based VET programs.

In addition to the above study destinations, a further one respondent from this school deferred a tertiary offer in 2016 (deferrers are included in their current destination).

Twelve respondents did not enter post-school education or training, and were either employed (eight) or seeking work (four).
